

Pursuant to NC Session Law 2024-53 passed October 25, 2024, the Board is working on measures to assist licensees who have been impacted by Hurricane Helene. If you live or work in one of the NC counties designated by FEMA as eligible for individual and/or public assistance ([link to map](#)), you may be eligible for delayed license renewal. This includes the provisions of additional time to complete your continuing competence requirement if you are in the reporting period January 1, 2023 - January 31, 2025, and additional time to pay the renewal fee. Visit the Board website ncptboard.org on or around December 2, 2024, for instructions on how to apply for delayed license renewal.
